Travelers Insurance, Hartford, CT, job URL:

Agile Project Manager: Agile Project Manager will be responsible lead some of the Personal Insurance IT strategic imperatives for 2016. This position is the primary point of accountability to Business partners and other parties for the management and implementation of small to medium sized Projects and/or small Programs that support achievement of simple to moderately complex unit or corporate goals. Controls planning and execution of the Project's activities and resources to ensure that established cost, time, and quality goals are met. Works with moderate supervision and is responsible for applying Project Management knowledge, skills, tools and techniques to Project deliverables, processes, and systems in order to meet or exceed stakeholder needs and expectations. Operates within defined parameters using a proven Project Management Methodology with flexibility to merge different methodologies in accomplishing collective goals. Manages team development, actively mentors members of the PM community.

Responsibilities include:

- * Leading small to medium size IT projects and project teams through the PI execution model delivery
- * Change Agent responsible for ensuring the team keeps a continuous improvement, inspect and adapt mindset
- * Agile Coach helping to guide / transform practices to align with lean thinking principles at both the team and program level
- * Facilitating / leading Agile Ceremonies (standups, iteration; release planning, retrospectives)
- * A continued focus on backlog refinement; contributing to roadmap maturity
- * Leader that works to eliminate blocks that the team encounters
- * Strong communication skills
- * Adept at working within highly matrixed organization
- * Create and track project resources plan and deliverables
- * Lead the production implementation of project
- * Effective stakeholder management and communication
- * Managing project budget and achieving cost targets
- * Building and leverages effective alliances across technical and business community
- * Manage project changes to achieve project outcomes

Qualifications:

- * Application of both Agile and Waterfall project SDLCs
- * Typically possess two to five years of Project Management or equivalent experience in the total Project life cycle.

- * 2+ years of experience as a Scrum Master / Agile Project Manager with increasing levels of complexity
 - * Rally experience preferred
 - * Scaled Agile Framework (SAFe) experience, Property/Casualty Insurance Industry, and systems development environment experience are preferred
 - * Certified Scrum Master (CSM)
 - * Experience in SDLC
